

EXHIBIT 5  
DATE 2-13-13  
HB 392

House Bill 392  
February 13, 2013  
Presented by Chas Van Genderen  
House Natural Resources Committee

Mr. Chairman, members of the committee, my name is Chas Van Genderen, Administrator, Montana State Parks, of Montana Fish, Wildlife & Parks. I am here to provide information on House Bill 392.

This bill would allow the division to develop rules relating to issuance of antiquities permits and, following such, may allow the department to sell Paleontological artifacts excavated from Makoshika State Park with monies going back to benefit the park.

The division has done some research on this topic and stands ready to answer any questions the committee may have.
